

International Childbirth Education Association

Networking opportunity

Throughout the year ICEA receives numerous requests from ICEA certification candidates and ICEA certified educators wishing to contact other educators in their area. Some of these educators wish to form study groups to prepare for the certification examination, others may be relocating and wish to have ICEA contacts at their new location. In response to these requests, ICEA maintains a list of ICCEs, ICPEs, ICPFEs, ICDs and ICEA certification candidates who are willing to be contacted via e-mail by other certified educators or candidates. Each ICEA educator wishing to take part in this program must furnish her e-mail address, name, city and state/province or country of residence and the program in which they are enrolled or certified. This list is maintained on the ICEA web pages. Uses for this list may include networking with other educators, forming study groups, obtaining local information and developing professional contacts.

The FaceBook page 'ICEA Certification and Member Support' is also available to network with other members on-line. Here you can share your experiences and ask questions of other ICEA members.

If you wish to be included, complete the information below and send it to ICEA: 2501 Aerial Center Parkway, Suite 103 Morrisville, N.C. 27560 USA.

E-mail address _____
Name _____
City and state/province _____
